Dear Sirs/Madams,

TO: SCHOLARSHIP COMMITTEE ADMISSION TEAM OF INES RUHENGARI

Dear Sirs/Madams,

It is with great pleasure and privilege that in composing this letter of motivation to apply in order

To participate in Bulungu Blue Echo-Rwanda Scholarship at Ines Ruhengeri in the program of

Biomedical Laboratory Science.

In fact, Dear Sir/Madam, I am a Rwandan aged 22 years old, I have graduated from secondary school in the field of Mathematics, Biology and Chemistry at GS Rukomo. I was attended many Laboratory practices which encouraged my knowledge and skills.

According to my family in development there is no financial stability that can cover the whole cost. Related to my studies at INES RUHENGARI throughout my life I have striven to achieve my goals solely on hard work and determination. I feel like this makes me a stronger person and gives great passion for anything I try to achieve.

This scholarship will assist me in achieving my goals through help in covering studies and living allowances at campus.

I'm looking forward to hearing from you Dear Sir/Madam, a favorable reply to my application.

Yours, Faithfully,

DUSHIMIMANA Emmanuel
