BSCHOLARZ PROGRAM

University of INES-RUHENGERI

NR2 ROAD MUSANZE

To whom it may concern,

It is with much gratitude that I recommend Mr TUYISHIME JOVANIE for inclusion in BSCHOLARZ PROGRAM in faculty of biomedical laboratory science at INES-RUHERI.

I was JOVANIE'S teacher and his mentor for sciences courses mainly biology and chemistry during his three years of advanced secondary school. In our class JOVANIE was very clever and so dedicative in sciences courses.

His writing and research was an outstanding for his years of secondary at E.S Murunda , normally he did a lot of enhance and boost his career and skills especially based on the living things and he was really interested in organic material researches. he is ready to assume and excel in upper division classwork , and possess the self Motivation to successfully create and execute and independent course of honor study.

JOVANIE'S academic strengths are complemented by his demonstrated leadership skills. he was our reference examples to the student who works hard for all of the years that spent with us in E. S MURUNDA . he is also active in church and student assembly forum.

Please let me know if I can provide any more information to strengthen JOVANIE's candidacy for the **BSCHOLARZ program**. he was a very special spark , and I trust he will go far making our country to better place.

Yours sincerely,

Mrs NIYOKWITONDA JULIENNE
